

IN THE DRAWINGS

As requested by Examiners Caschera and Bella, Applicant respectfully submits the following figure 3 to the figures of the present application.

Attachment: Figure 3

REMARKS

The Examiner is thanked for his careful and very thorough Office Action.

An interview was conducted on April 11, 2005, between Patrick Holmes (representing Applicant) and Examiners Antonio Caschera and Matthew Bella. In that interview, agreement was reached that all claim rejections would be removed, including all rejections under sections 112 and 102 from the Office action of January 25, 2005. Examiner Bella stated that all rejections would be removed. Examiner Bella stated that if no new relevant prior art was found, the application would be allowed, with the following changes: (1) Applicant would add a flowchart and accompanying text based on the steps of claim 1, and that this flowchart and text would not constitute new matter since it only summarizes what was already in the specification; (2) Applicant would amend the independent claims (i.e., claims 1, 5, 13, 19, 22, and 28) to omit reference to the lack of use of an error term or pixel-by-pixel decisions, and that this amendment would be permissible. Examiner Bella requested that these changes be filed with the response to final Office action, and Applicant agreed.

Examiner Bella concluded the interview by stating that given these changes, the application would either be allowed or, if new relevant art was found, a new Office action would be sent to Applicant.

Accordingly, by the above amendments to the claims, figures, and specification, Applicant has added a flowchart to the steps of claim 1, as well as an accompanying description to the specification, and has amended the independent claims to omit reference to the lack of use of an error term or pixel-by-pixel decisions.

Conclusion

All grounds of rejection and/or objection are traversed or accommodated, and favorable reconsideration and allowance are respectfully requested.

Respectfully submitted,

04/19/2005
